About our Aerial Farewell

At Aerial Drone Funerals, we understand the profound significance of saying a heartfelt goodbye to your loved ones. Our mission is to provide a unique and dignified aerial ash scattering service, allowing you to create a meaningful tribute that transcends the ordinary.

Honoring our Veterans and First Responders

Burials at Sea

Our Drones provide a dignified and precise scattering of ashes at sea, 3 NM from shore, with the option to capture the event using an onboard camera and live stream the event for friends and loved ones to enjoy. This modern approach ensures a memorable and respectful farewell in a tranquil, natural setting, blending contemporary technology with standard traditions.

Contact Us

Begin the journey to a heartfelt farewell. Contact us to discuss your preferences and arrange a ceremony that celebrates the life and legacy of your loved one.

AERIAL DRONE FUNERALS

Allow us to gracefully scatter the ashes of your loved ones in a tranquil aerial ceremony, providing a unique and dignified farewell.

HONORING LIVES FROM NEW HEIGHTS

SOARIN' DRONE SERVICES LLC

Aerial Farewell Services

Experience a serene and graceful ash scattering ceremony as our drones carry out a gentle dispersal, honoring the memory of your loved ones in a truly special way.

Aerial Ash Scattering

Capture the moment with high-quality aerial photography or videography to preserve the memories of this meaningful ceremony.

Tailor the flight path to significant locations or places of sentimental value, ensuring a personalized and heartfelt tribute.

Our experienced team is here to guide you through the process with empathy and understanding, providing the support you need during this delicate time.

Reach out to discuss your preferences and arrange a ceremony that honors the memory of your loved one.

How To Get Started

Contact us with your location preference giving as much detail as possible, and including your ideal timeline.

Once a booking is received, we'll go to the next step, which is to conduct a full risk assessment of the chosen area.

Once we have authorization with the FAA, we will confirm with you.

Ultimately, we are present to conduct the scattering on your behalf and we'll try to accommodate your wishes to make it the most memorable time with your loved ones.

Your presence is missed, your memory is treasured!

Aerial Ash Services

On the day, we arrive approximately one hour before the flight so we can set up our staging tent, conduct checks on the drones, and ensure we have a safe operating area. We will mark a nearby take-off and landing site that gives us an unobstructed view out to the area over which the ashes will be scattered... usually 50 to 200 feet from our staging tent. Friends and relatives who choose to be present are most welcome to join us in the viewing area while we fly the drones; some like to help load the ashes before launch, some like to take photographs, and some like to be part of the scattering by controlling the release of your loved one's ashes.

Our experienced and compassionate team is dedicated to supporting you through this sensitive process. We approach each service with empathy, understanding, and professionalism.
